IT Project Officer

Epitech student with a background in HR project and change management. I am deepening my computing skills through hands-on projects, from Java to leading AI agents, with the aim of applying them to business challenges.

Education

Pre-MSc (1 year), then master's in Information Systems Architecture (2 years) · RNCP 38114

EPITECH · 2026 – 2029

Double master's degree in Human Resources Development Management and Change Management

Sup des RH & EDC Paris Business School · 2022 – 2024

Skills

- Python: intermediate
- HTML / CSS: intermediate
- JavaScript / React: in progress
- Java: in progress
- Context engineering (AI)
- GitHub & Microsoft 365
- Project management
- English: C1 · French: native

IT projects · 2026

Algorithms · Python

- Language detection: text normalisation and ranking of ten languages by comparing letter frequencies.
- Caesar and Vigenère ciphers: message encryption and decryption; Caesar key recovery through frequency analysis.

Python · Pygame

- Hangman and Snake games: keyboard events, collision and score handling; code organised into modules.

HTML · CSS · JavaScript

- Bilingual portfolio and online CV: responsive development, interactive project demos and version control with Git.

React · AI agents

- Job Board, a full-stack website: project manager and React front-end in a team of three.
- Working framework for AI agents (Claude, Codex): rules, memory, missions and automated checks.

Professional experience

HR and Change Management Project Officer (apprenticeship) · **SFR DISTRIBUTION · SEP 2022 – OCT 2024**

HR project management and support:

- Management and monitoring of employer branding, gender equality and recruitment projects.
- Change management advice and support; management of a project involving 3,000 employees (content design and updates, support plans and their implementation).
- Listening to employees and suggesting improvements.
- Internal and external HR communication via LinkedIn, mailing and intranet.
- Engaging and mobilising employees in projects, follow-up with ambassadors.

Skills development plan:

- Training design (analysis of agreements, writing a concise script, creating visuals).
- Video editing with CapCut, Caption and edit2Emotions.
- Design of evaluation methods and monitoring of performance indicators.

Employee relations:

- Analysis of HR data for reporting.
- Support in preparing mandatory negotiations with the Social and Economic Committee (CSE).
- Legal monitoring and answers to HR team members' questions.
